MATERIAL SAFETY DATA SHEET

Classified as hazardous according to criteria of Worksafe Australia

PRODUCT: WHITE PEARL

SECTION 1 – PRODUCT IDENTIFICATION

Trade Name: WHITE PEARL

Distributor: Complete Carwash Supplies (NSW)
Emergency Phone No: 0418 410 688
Regular Phone No: 1300 722 435
Address: 28A Williamson Road,
INGLEBURN, NSW, 2565
Creation Date: November, 2006
Revision Date: November, 2021 and is valid for 5 years from this date

SECTION 2 – HAZARDS IDENTIFICATION

Statement of Hazardous Nature

This product is classified as hazardous according to criteria of NOHSC.

UN No:	Not Applicable	PACKAGING GROUP:	Not Applicable
CLASS:	Not Applicable	HAZCHEM:	Not Applicable
SUB-RISK	Not Applicable	POISONS SCHEDULE:	S5

GHS Signal word: DANGER.

Aspiration Hazard: Category 1

Flammable Liquids: Category 4

HAZARD STATEMENT (s):

May be fatal if swallowed and enters airways.

Combustible liquid

PREVENTION PRECAUTIONARY STATEMENT:

Keep away from heat, sparks, open flames and hot surfaces.

No Smoking.

RESPONSE PRECAUTIONARY STATEMENT:

If SWALLOWED: Immediately call a POISON CENTRE or doctor, physician DO NOT induce vomiting.

STORAGE PRECAUTIONARY STATEMENT:

Store locked up.

Store in well ventilated place.

Keep container tightly closed

DISPOSAL PRECAUTIONARY STATEMENT:

Dispose of contents, container in accordance with local regulations.

OTHER INFORMATION:

Keep out of the reach of children

SECTION 3 – INGREDIENTS

MATERIAL/COMPONENT	Wt%	CAS NUMBER
Naptha (Petroleum) hydrotreated heavy	>10%<30%	64742-48-9

Email: sales@completecarwash.com.au

Other ingredients not classified as hazardous to 100%

SECTION 4 - EMERGENCY AND FIRST AID PROCEDURES

For advice, contact a Poisons Information Centre (Phone eg. Australia 131 126; New Zealand 0 800 764766) or a doctor.

EMERGENCY AND FIRST AID PROCEDURES

Eyes: Hold eyes open and flush with water for at least 15 minutes. Seek medical attention.
Skin: Remove contaminated clothing and wash skin thoroughly with water. Wash clothing before re-use.
Inhalation: Remove to fresh air. Allow patient to assume most comfortable position and rest until recovered. Apply artificial respiration if not breathing. Seek medical attention.
Swallowed: Rinse mouth. Do not induce vomiting. Give a glass of water. Seek medical attention.

SECTION 5 – FIRE AND EXPLOSION DATA

Suitable: Combustible liquid. Avoid heat and all ignition sources. Use only in well ventilated areas. Prevent build-up of flammable vapours. Consult further information on safe storage and handling of hydrocarbon liquids. Handle in accordance with state or territory regulations for hydrocarbon liquids.
Extinguishing Media: Closed containers exposed to high temperatures, such as fire conditions may rupture. Vapours may form explosive mixtures with air. Use water sprays to cool fire exposed surfaces and any adjacent storage vessels. Shut off source of product if safe to do so. Remove sources of re-ignition. Use water fog to extinguish, or in the absence of water fog, a fine spray may be used. Wear a breathing apparatus when attending fire hazard.
Hazards from Combustion Products:

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Spill or Leak: Ensure adequate ventilation. Avoid prolonged breathing of vapour. Contain spill with sand or earth. Do not allow to enter storm water drains, or water courses. Gather up absorbent for disposal according to regulations.
Personal Protection: Refer to Section 8 of this SDS
Waste Disposal: Dispose of in accordance with local, state, and federal regulations.

SECTION 7 HANDLING AND STORAGE

Handling & Storage: Store in cool well ventilated area away from heat and ignition sources. Containers should always be kept closed in storage and properly labelled. Avoid contact with oxidising agents and mineral acids. Store only in original or approved containers. Use with adequate ventilation and avoid generating dusts. Harmful or fatal if swallowed! Avoid contact with eyes and skin. Avoid breathing vapors. Do not flame, cut, braze weld or melt empty containers. Keep the product away from heat, open flame, and other sources of ignition.
Other: This product is classified as a C1 combustible liquid for the purpose of storage and handling.

SECTION 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits: No value assigned for this specific material by the National Occupational Health and Safety Commission. However, for the hydrocarbon constituent:
TWA = 184 ppm (1200 mg/m³)
TWA - The time-weighted average airborne concentration over an eight-hour working day, for a five-day working week over an entire working life.
These Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

COMPLETE CARWASH SUPPLIES

12 ENTERPRISE CIRCUIT, PRESTONS NSW 2170

Phone: 1300 722 435

ABN 24 262 329 805

ACN 114 640 729

Email: sales@completecarwash.com.au

Engineering Controls: Keep away from sources of ignition. Take precautionary measures against static discharges. Provide sufficient ventilation to control exposure levels below the exposure standards. Use local exhaust ventilation at sources of air contamination such as open process equipment. Dangerous concentrations may exist in areas with poor ventilation such as confined spaces.

Personal Protection: Wear chemical goggles or face shield. Wear chemical resistant gloves. Respiratory protection should be used if there is a risk of exposure to high vapour concentrations or if dust is being generated from usage. Respirators should comply with AS1716 or an equivalent approved by a state/territory authority. Wear protective clothing as necessary to avoid skin contact.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Cream viscous liquid
Specific Gravity:	approx. 1.00 g/ml
Boiling Point:	Not available
Solubility in Water:	Dispersible in water
pH:	None allocated
Flash Point:	> 61C
Flammability:	C1 Combustible liquid

SECTION 10 – STABILITY AND REACTIVITY DATA

Stability:	Stable under normal conditions of use.
Conditions to Avoid:	Open flames, sparks, and heat.
Incompatibility Materials to Avoid:	Strong acids, alkalis, and oxidizers.
Hazardous Decomposition Products:	Carbon dioxide, Carbon monoxide and acid fumes.
Hazardous Polymerization:	Will not occur.

SECTION 11 - TOXICOLOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

HEALTH EFFECTS

Eyes:	Contact with eyes can cause irritation, redness, tearing, blurred vision, and/or swelling. Dust generated while using this product contains abrasive material which can cause irritation of the eyes.
Skin:	Contact with skin can cause irritation, (minor itching, burning, and/or redness) dermatitis.
Inhalation:	Irritant to the nose and respiratory tract, headaches and nausea. Due to the physical form of the product it is not expected that the exposure standards listed will be exceeded. Shaking the dried polish from polishing pads or cloths may produce dust which will contain kaolin. Inhalation of this dust may cause difficulty in breathing. It can cause coughing, wheezing and possible long term damage to the lungs.
Ingestion:	Ingestion can cause possible gastrointestinal irritation, nausea, vomiting, and diarrhoea.
Chronic Effects:	No long term exposure effects are known

SECTION 12 - ECOLOGICAL INFORMATION

Avoid contaminating waterways

SECTION 13 - DISPOSAL CONSIDERATIONS

Dispose of material according to Local Authority Regulations or through a licensed waste contractor.

SECTION 14 TRANSPORT INFORMATION

Road and Rail Transport:	Not currently classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail.
Marine Transport:	Not currently classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.
Air Transport:	Not currently classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.
